

Derby Community table tennis club

Treasurer for Start-up Derby Charity

Launching in early 2020, Derby Community Table Tennis Club will seek to engage with all parts of the community and, through the power of table tennis, provide sporting opportunities and social activity for people of all ages and abilities.

Other than finding the sport fun, no specific experience of table tennis is required. An understanding of finance processes and simple book keeping would be advantageous; however, the clincher would be a real desire to break down barriers and use table tennis as a means of bringing people together.

A key member of a small but enthusiastic committee, the treasurer role could be held on a short-term project basis to help the Club over the first few months by establishing simple finance procedures that facilitate good governance and the subsequent submission of accounts.
